LOCAL DEALER STAMP

...an excellent sea boat, with a stable and comfortable ride. Appealing to anglers, divers, skiers, or anyone who wants a safe, practical, competitively priced craft.

# RAIDER

## RAIDER CONCEPT

The Raider 16 & 18 are safe, practical crafts that perform in all conditions. The uniquely designed heavy reverse chine hull offers excellent sea keeping qualities with a comfortable dry ride, and will tackle the roughest waters.

Attractive styling with an emphasis on practicality, Raider 16 & 18 Cuddy maximise available space.

The integral cuddy and exceptional freeboard combine to give designed-in safety and protection from the elements.

The cleverly incorporated cabin area allows for a multitude of uses to suit your requirements.

With vast 50sq ft & 64sq ft cockpit floor area leading to the low entry swim platform the Raider 16 & 18 Cuddy show versatile pedigree.

*Deck space large enough to take four serious anglers side by side, with room for all tackle boxes and equipment*

Raider (UK) Ltd is a progressive company which is committed to innovation and excellence. Using a skillful blend of traditional craftsmanship and ultra modern technological thinking, the team work extremely hard to ensure every boat meets the exacting demands of the customer; even to the extent of incorporating owners ideas into the final product. Each boat is handbuilt to comply with the new European CE standards, and an owners desk hotline is available to offer advice and warranty support for every new Raider Boat owner.

*Maximum utilisation of all available areas makes the Raider Cuddy a very spacious boat*

# RAIDER 16 & 18

CUDDY

## DESIGN FEATURES

*Unique hull with heavy reverse chine, giving it a gull wing shape. This gives the boat a soft, dry ride, because the air/water mix under the wings provide lift and make the boat plane flat and level. It also provides a soft, progressive entry which prevents severe banging and slapping in choppy water*

- Protective rubbing strake around hull line
  - Escape hatch in cuddy
  - Steering system – rated up to 235 hp
  - Space for fuel tanks under rear platform
  - Hull and decks are laid up with the latest high tech materials that combine high strength and lightness
  - Excellent non-slip surface on all decks and floors
  - Low level swim platform
- OTHER FEATURES
- The only 18' boat on the market to offer this huge 64sq ft open deck space
  - Self draining bow anchor locker
  - Side console
  - Helm seat
  - 50sq ft open deck space in 16' model
  - 3ft freeboard

## HULL CONSTRUCTION

The Raider 16 & 18 built using isothalic gel coats (a barrier to osmosis) and bi-axial cloth, which is stitched to chopped strand mat. This makes for a lighter, stronger boat that will absorb mechanical shock far better than conventional materials. During lamination, the cloth is overlapped by 8" on the keel and bilges, giving double the thickness and greater strength. The decks are bonded onto a chassis which is also bonded into the hull whilst it is still in the mould. This holds the hull in the shape and provides correct stress loading throughout, both prior to being released, and from then on. This unique 'boat with chassis' design gives the boat enormous strength.
